

I recently purchased a New Cadillac Ext, along with my purchase came the the XM satillight service. After my first three months of complimentary service I will indeed purchase a membership, I do a lot of traveling by driving and spend a lot of time in my vehical, I would be very unhappy to learn that I could not depend on XM for my traffic alerts, and wheather reports, I see no reason for having to disturb this organization when all there are doing is providing a paid service. I dissaprove for getting involved with those who want to disband, only because of broadcasters saleries may be threatened for these aggrevating commercials. Sincerely Ginger Grutzius
